

Homework 6 - Team Treasure Hunt

Part 1

To prepare for the treasure hunt you need to deploy a contract on Goerli test net.

1. Take the contract and interface from [this](#) gist
2. Deploy the contract to Goerli test net and note the address it was deployed to.

Part 2

Register your team name, team number with your team wallet [here](#):

Look for clues in the transaction.

This site may help [you](#):

Part 3

The treasure contract looks like [this](#)

Once you have found it on the test net, you need to

1. Call it from your interface contract with your team wallet
2. If successful - you should see the event in TreasureChest.sol
