Homework 5

1. Install a browser wallet such as Metamask
   1. Connect to the Goerli Test network
   2. Set up a wallet that will be used by your team for the team games
   3. If you need some test ETH, lets us know and we can send some to your team.
2. Update your Volcano coin contract to inherit from the Open Zeppelin Ownable contract, and use this to replace the owner functionality in your contract.
